

## Latitude™ 12 SEER HIGH-EFFICIENCY HEAT PUMP

- Quiet Operation
- Long-lasting Reliability
- Year-round Comfort

 **YORK**®  
It's time to get comfortable.™

# Why Choose a York® 12 SEER LATITUDE™ HEAT PUMP?

## ALL IN ONE.

Unlike conventional central air conditioning systems, a heat pump provides comfort during the hottest summer days and coldest winter nights. During summer, warm house air is absorbed and compressed in the coil—lowering the temperature—and the resulting cooled air is blown into your home. During winter, it all happens in reverse; outdoor heat is absorbed and compressed—raising the coil temperature—and is then blown into your home.

## AFFORDABLE COMFORT.

The York® Latitude™ 12 SEER<sup>1</sup> increases energy efficiency in two ways. First, its larger footprint provides for more condenser coil than smaller units. This dramatically improves heat transfer, which reduces pressure and lowers energy bills. Second, when matched with a compatible York ECM variable-speed air handler, a rating over 13 SEER can be achieved.

## PEACE AND QUIET.

The best compressor technology, along with engineered features like rippled coil fins, has been applied to muffle operating sounds.

## LONG-LASTING RELIABILITY.

The Latitude 12 SEER is innovatively designed to operate under lower refrigerant pressure and features a Time Delay Defrost system that controls coil icing on the outdoor unit. This reduces wear and tear on the unit and extends equipment life.

FEATURE	BENEFIT
Durable matte appliance-like finish	Resists rust and corrosion
Raised fan coil guard	Reduces sound levels
High-pressure relief valve and solid core filter-drier	Extends life of compressor
Permanently lubricated fan motor	Reduces maintenance costs
Coils constructed of copper tubing with hardened, black-coated aluminum fins	Durability and long-lasting efficient operation
Time delay defrost system	Prevents coil icing and improves energy efficiency

1. The Federal Government has established SEER (Seasonal Energy Efficiency Ratio) and HSPF (Heating Season Performance Factor) ratings to allow you to compare energy efficiencies of heating and air conditioning equipment. The higher the SEER or HSPF number, the more efficient the product.

LATITUDE 12 SEER				
Model	Capacity	Mbh	SEER	HSPF
E1RC018S06	1.5 Ton	17	12	7.20
E1RC024S06	2.0 Ton	23	12	7.30
E1RC030S06	2.5 Ton	28	12	8.00
E1RC036S06	3.0 Ton	33	12	8.00
E1RC042S06	3.5 Ton	40	12	8.00
E1RC048S06	4.0 Ton	47	12	8.00
E1RC060S06	5.0 Ton	59	12	8.25

The Latitude Series unit is built for years of trouble-free service, with a 10-year limited warranty on the compressor and a 5-year limited warranty on all other parts.

For even more peace of mind, consider purchasing a

YORKCare™ Comfort Plan, providing total parts and labor coverage for up to 10 years. Ask your York Dealer for details.
