# Why Choose a York® STELLAR® 2000 SPLIT SYSTEM HEAT PUMP?

## A NEW LEVEL OF INNOVATION.

Part of York's premium line, the Stellar® 2000 Heat Pump, takes design and innovation to a new level. This proven, versatile system delivers outstanding style and comfort. And its compact size makes it the perfect fit for any type of installation.

## SAVE MONEY AND ENERGY.

The Stellar 2000 Heat Pump is the outdoor half of a home comfort system. Delivering ratings of 10 SEER and 7.0 HSPF, the Stellar 2000 offers excellent performance while reducing your energy costs. Match your high-efficiency Stellar 2000 unit with a variable-speed air handler (the inside unit) and achieve even higher energy efficiencies and extended system life.

## DURABILITY THAT'S BUILT RIGHT IN.

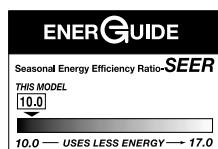

When it comes to long-lasting quality, the Stellar 2000 Heat Pump shines. Put through a grueling 750-hour salt-spray test, the Stellar 2000's tough powder coat finish prevents corrosion. Quality, copper-tube and aluminum-fin condenser coils provide rugged reliability. And, a high-pressure relief valve and temperature sensor work together to protect the compressor during extreme operating conditions.

## QUIET AND COMFORTABLE.

Designed for whisper-quiet operation, the Stellar 2000 Heat Pump features the York Sound Silencer System™. High-quality compressor mounts contribute to the very low sound level of the Stellar 2000.

FEATURE	BENEFIT
Plastic coil guard	Protects coil and enhances system appearance
Solid core filter drier	Extends life of compressor
Rigid top panel	Reduces operating noise
Upward coil guard	Carries operating noise away from living area
Copper tube and aluminum fin coil	Increase efficiency
